***Ex Parte Quayle***

This application is in condition for allowance except for the following formal matters: applicants did not delete claims 6-9 and 13-15 that are drawn to non-elected inventions of Groups II-III. Note that applicants elected Group I without effective traverse in the reply filed on 06/12/2009. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, Claims 6-9 and 13-15 were withdrawn from prosecution as being drawn to non-elected inventions of Groups II-III.

Applicants request rejoinder according to *In re Ochiai*, but the examiner disagrees with applicant's request. There was no advisory statement or conditions set forth to rejoin Groups II-III in the Restriction Requirement dated 12/15/2008. Note that the inventions listed as Groups I-III said Restriction Requirement do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is a phenoxazine ring derivative and is different from the special technical feature of Groups II-III. The special technical feature of Group II involves a method of labeling target that is not present in the special technical feature of Groups I or III. The special technical feature of Group III is conjugate of compound of formula I and is different from Groups I-II because it requires a biomolecule that is not present in Groups I-II. It is recommended that applicants delete claims 6-9 and 13-15.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
